The Store That Saves You Money
BLAIRMORE ALBERTA

Practically everything is to be taxed by the Dominion Government in order to raise \$30,000,000 during the next 10 months so as to meet obligations under new war loans. The incomes of banks, marine and general insurance, loan and mortgage associations, a large proportion of articles that pass in or come out of bond, railway tickets, sleeping berths on Pullman cars, telegrams and checks and receipts paid into banks, postal and money orders, post cards, bills of lading, perfume, drugs, champagne, and many other luxuries. There is to be no income tax. And all this because the Kaiser tore up a scrap of paper and wants to cripple England and impose on Canada his impetuous "Kultur."

Great Britain, France and their allies have advised neutral countries that they hold themselves at liberty to stop all shipping toward Germany and the countries of her allies. Public opinion in this country will not let this decision stand. The text of the declaration will set forth that this decision is necessary because of the German submarine attacks, but that Great Britain and France will respect the lives of crews and passengers in any step they may take. The declaration is not a reply to the American representation looking for a cessation of German submarine activity and the admission of food to Germany for civilians. The declaration will not affect cargo shipping before the admiralty note was issued.

LADIES A return game will be played on the Frank Rink on Tuesday night next between the ladies of Coleman and Blairmore. Proceeds in aid of the Canadian Red Cross Fund. Game to start at 8 o'clock. Don't miss this opportunity of learning **HOCKEY** how to play real

The steamer Dacia, which sailed from Norfolk on February 11 for Rotterdam with a cargo of cotton, in the face of assertions that she would be seized by British men-of-war inasmuch as she had been a German vessel at the outbreak of the war, had almost completed her trip when she was captured by a French cruiser and taken to Brest, France.

THE FORTY YEAR TEST
An article must have exceptional merit to survive for a period of forty years. Chamberlain's Cough Remedy was first offered to the public in 1872. From a small beginning it has grown in favor and popularity until it has attained a world wide reputation. You will find nothing better for a cough or cold. Try it and you will understand why it is a favorite after a period of more than forty years. It not only gives relief—it cures. For sale by all dealers.

Legislature Opens

The Alberta legislature opened at Edmonton on Thursday last, and after the ceremony the house adjourned until Monday, March 1st.

The bill covering the application for a charter for Athabasca to Fort Vermilion railway was presented, and the only other new railway charter will be asked by the Central Canada railway for the line east from the A. & G. W. near Lac la Biche to the boundary of the province. Other railway applications will be for time extensions and probably for guarantees. The legislation to give priority to liens for seed grain is still the only Government bill which has been announced. The Government is also proposing to make some changes in the election act so that it can get out a voters list which may be used in the prohibition vote next year.

The speech from the throne is as follows:

"Mr. Speaker and members of the Legislature assembly:

It gives me pleasure to welcome you to the third session of the third legislature of the Province of Alberta. I did not expect when I took you farewell in October last that it would be necessary to call you together for the transaction of business so soon, but the necessity of making legislation by which the federal and provincial governments may grant assistance in the way of aid and in the province seems sufficiently important to justify my requesting your attendance."

The speech then went on to mention the war, and called attention to the fact that from the Province of Alberta some 11,000 men had gone to join the colors, among them some members of the legislature.

The trends of the province was also touched upon and it will be necessary for Alberta, in common with other provinces, to exercise a rigid economy. A number of bills will be laid before the house, all the budget as well as the amounts required for expenditure during the coming year.

What The Universities Are Doing For The War

With three members of the staff at the front, four in training, and fifteen in the field, the University of Alberta is in the first and second line of service. The University of Alberta is well represented among those who are giving themselves to the service of the Empire. Four students from Alberta College (Medicine) are in the front line. At the University itself faculty and students are earnestly engaged in military preparations. In October, application was made to the Militia Department for authorization to form a university corps. Training was immediately begun. One hundred and ninety-two men are now taking company drill, about ten per cent of students at every day. Twenty of these are members of the teaching staff. An officers' training class has also been formed and is well attended, while fifty-four men are making special preparations for military medical work. To those students who are taking first courses in military training credit is allowed as far as course in the ordinary curriculum of the faculty of Arts and Science. In the formation of these training classes President Forsyth has taken great interest, and to his sympathy and co-operation are largely due the smoothness and efficiency with which they have been organized.

Germany's Paper Blockade

Vancouver News-Advertiser: They sallied forth to sweep the sea. They made a British squadron flee. And scored a famous victory—

On paper. They struck a cruiser—from the air. They saw it damaged past repair. It happened—did you question it?

On paper.

Of other vessels three or four— The number grows from more to more. Were sunk amid the raucous roar—

On paper.

The British claimed a great success. But every day 'tis growing less. And soon they must their route confess.

On paper.

Ah, well: to words we never pin Much faith, so not our people kin. Not to cease such victories to win—

On paper.

Take a little touch of English, only just a little bit. Mix it well with Scottish muck; add a little Irish grit.

Then of Welsh celt table-spoonful, Shake it well and its complete; And you call the mixture "Britann."

Which sure is darn hard to beat!

Miners' Agreement Conference is Opened

Reminiscence of the preliminary, shuttlecock of four years ago which resulted in a deadlock and a disastrous strike in the coal mines of the Crow's Nest Pass, a conference affecting 6,000 miners in District 18, United Mine Workers of Alberta opened in Calgary on Tuesday.

The parties to the negotiations are representatives of the United Mine Workers and representatives of the Western Canada Coal Operators' association, and the reason of the new will be the details of the new agreement to replace the old one that expires March 31.

The stage is all set, President Phillips and all the minor delegates, President Louis Stockert and all many of the operators are in town, and the history-making assembly met in the Herald building at 3 o'clock Wednesday evening.

The president, Louis H. Stockert, who represents the Canadian Pacific railway, and Secretary W. E. McNabb of the Western Canada Coal Operators' association, have been in constant touch lately on the matter. The majority of the operators from Lethbridge, Taber and the Crow's Nest Pass are in Calgary for the meeting.

The mining delegates are W. L. Phillips, president; Fernie; Wm. Graham, vice-president; Fernie; D. Rees, international board member of the district; A. J. Carter, secretary-treasurer; G. Jarwick, Bellevue; R. Oakes, Banff; R. Nigert, Taber; R. Garbutt, Corbin; R. Beard, Michel; J. Johnson, Coleman; F. Perry, Fernie; D. McNabb, Coalhurst; W. Morris, Ramona; and W. Larsen, Lethbridge.

The Liquor Act of Alberta

1.—Purpose of the Act.
To prohibit the sale or gift of intoxicating liquors within the Province of Alberta except for other than beverage purposes, and to restrict the consumption of liquor to the use of the household.

It does not prohibit the manufacture of liquor by any brewer or distiller, nor does it prohibit its sale by any person within the province, as these privileges are granted him by Dominion statute. Nor does the Act prohibit the consumption of liquor in a person's home provided the liquor was lawfully obtained within the province. It does not restrict the sale of liquor at any time. Having possession of a quantity larger than this maximum amount shall render any private individual liable to prosecution under this act. In this way the individual liquor is restricted.

2.—Provision for Necessary Purposes

Other than Beverage, and Medium of Distribution.

The Lieutenant Governor in Council shall appoint vendors to supply those who require alcohol for medicinal, mechanical, scientific or agricultural purposes. Such vendors are to receive fixed salaries, but also to give a profit on commissions from the sale of liquors lawfully or lawfully. The vendor shall supply each applicant for liquor only upon his or her sworn statement that it is to be used for other than beverage purposes; and to secure liquor from the vendor the applicant must be properly registered in his or her particular profession, as druggist, physician, etc. Accurate records of the amounts sold and received, and the purpose for which they were sold and received, accompanied by a sworn statement, must be forwarded to the Attorney General's department by the vendor and the applicant monthly, and such records shall at all times be open for inspection. Consumption of liquor as a beverage on the premises of the vendor is absolutely prohibited.

3.—Prosecutions and Penalties.

The penalties for conviction are fixed by the Act, and vary according to the nature of the offence, whether it is a first, second or third conviction. The time runs from fifty to five hundred dollars, and not less than one month nor more than six months. A case may be tried before a judge, police magistrate or justice of the peace. An appeal can be made only under certain cases and that to the judge of the district. Police officers, policemen and constables shall have full authority to enforce any of the provisions of the Act. All fines accruing from prosecutions shall go to the general revenue of the province.

4.—Majority Required and Voters Eligible.

By the terms of the Direct Legislation Act, under which this referendum is being held, the majority required is necessary to make it a law in the province. Any male, British subject, who is over 21 years of age and has resided for a period of twelve months in the province and for three months in the electoral constituency, shall be entitled to vote.

Abe Martin says: "The great strength of our business is to do so much and keep from doing any more."

Patriotism and

Production

Patriotism without production is an empty sound. If ever there was a time when by your deeds you are required to be known, it is now. Now, when the Empire is at war; now, when many of the regular channels of supply are closed; now, when men in millions have been summoned from the paths of industry to the inferno of destruction; now, when Britain is fighting for Belgium's right to live, now, when the world's liberties are at stake; now, when Germany seeks to prostrate Britain even as she has prostrated Belgium; now, when Germany threatens the forty million people of England, Scotland, Ireland and Wales with starvation; now, when the enemy is bombarding peaceful towns and villages, slaughtering innocent and harmless women and children; now, when fertile fields and fruitful groves of other lands are lying in wasteland swells with death; now, is the time when Canada is called upon to put forth her mightiest effort to help stem the tide of destruction, to aid the Empire and to profit herself.

In entering upon the campaign in which it is now engaged, the Department of Agriculture of the Dominion has entered upon a task that should do much good. It is not that our farmers need altogether to be prompted to lend to themselves, but that perhaps some of them do not fully recognize the seriousness of the present and the more than probable critical conditions of the future. If the war were to end tomorrow, there would still be need for every effort in productiveness, for many years must elapse before the devastation that has been caused can be reconstituted or repaired. Unhappily, the probabilities are that the exact conflict will continue for many months yet, in which case the mind of man cannot fathom or foresee the damage that will have been done to every form of industry. To agriculture in particular, by the waste of life, by the wreck of property and by the spreading of desolation. It is in repairing the damage others cause that the farmers are called upon to aid. It is their mother country that cries to them.

The agricultural Department is not alone holding conferences at many points in the country, but it is engaged, as will be seen by the announcements elsewhere, in distributing large quantities of literature telling how the farmer can best serve the interests of the Empire, display his gentle sense of patriotism and lending his aid to himself. In brief and explicit language, that all who run may read and understand, is pointed out the needs of the situation and how those needs can be met. Above all, the advice is given to avoid waste. Everything can be utilized. Nothing need be thrown away as valueless. The economy of production is in saving.

The wisest can learn something by reading, and in the Bulletin and Reports prepared and written by experts and men of practical science, farmers will find hints, suggestions and information of the greatest possible value at this season, and such as will advantage both their land and themselves for all time. They will also find in that duty to the Empire which is such passing and instant importance that to shirk it is to be criminal. Copies of the publications of the Department can be had upon ad-

FREE TO ALL SUFFERERS
If you are a sufferer from any of the following ailments, you are entitled to a free trial of Eddy's Ses-qui-Non-poisonous matches. The following ailments are: Rheumatism, Gout, Neuralgia, Sciatica, Migraine, Headache, Backache, Stomachache, Indigestion, Constipation, Nervousness, Depression, Anxiety, Insomnia, and all other ailments of a similar nature. Write to Eddy's Ses-qui-Non-poisonous matches, 1000 Avenue of the Stars, New York, N.Y., for a free trial.

CANCER
Thomson, Lippman cured without knife or drug. All cases of Cancer, including Breast, Lung, Stomach, Liver, Pancreas, Prostate, Bladder, and Rectum, cured by the use of the Thomson-Lippman Cancer Cure. Write to Thomson, Lippman, 1000 Avenue of the Stars, New York, N.Y., for a free trial.

When is a Citizen Not a Citizen
Cautiously and altogether deceitfully continued is the German Empire citizenship law, adopted by the Reichstag and Bundesrat and signed July 22, 1913, by the German Emperor at Berlin, on the feast of the Hohenzollern. The text of this law reads as follows:

"Citizenship is not lost by one who, before acquiring foreign citizenship has secured the written consent of the competent authorities of his home state to retain his citizenship. Before this consent is given the German Consul is to be heard."

Which means that a man may take out naturalization papers and pass among us as a Canadian citizen while by secret arrangement he really is a German.

For years Mother Graves' Worm Exterminator has ranked as the most effective preparation manufactured, and it always maintains its reputation.

A Wise Girl
"Ah, Marie," said the ardent young millionaire, "I love you more than tongue can tell!"

"Good work," replied she, "demure little chorus girl. Put it in writing, Sydney. I'd rather have it down in black and white, anyhow."

Minard's Liniment Cures Diphtheria.

"I hear a lot of talk nowadays about eugenics and the law of heredity. What is the law of heredity, anyhow?" asked the prominent member of the president.

"Very simple," replied the president. "The law of heredity is that all undesirable traits come from the other parent."

Every Man is Taken

Constitution Sold to be Ruling in Austria-Hungary Owing to Late Troop Levy

The stringency of the latest Austro-Hungarian war law has created consternation in the monarchy, as apparently the military authorities are determined to leave no loophole of escape from service.

The official summons embraces the whole force liable for service from 19 to 36 years of age. Young men who in 1912 were for the third year last time declared exempt through physical disability, and men rejected three months ago must again present themselves.

The official notification calls up foreign born Austrians and Hungarians who were naturalized after they had reached their 23rd year, although these men heretofore have been entirely exempt from military service.

About ten army corps, mostly German troops, including all available men, are concentrated in Southern Hungary, where decisive battles in the great war will shortly be fought.

Germany's plan is to make the bulk of the available forces and oppose the Russian invasion of Hungary from Bukovina.

Meanwhile other forces are being collected along the frontier. Austria-Hungary has been rearming its offensive. Hungary after Poland and Galicia will soon become the chief battlefield in the eastern theatre of the war.

The difficulties of getting new out of Austria already great, are now increased by extraordinary precautions taken to prevent the leakage of news across the Italian frontier.

Prisoners killed and injured. More than one-third of the total number of persons killed or injured by the railroads in the United States in the last ten years were trespassers either walking on railroad tracks or riding on railroad trains without warrant.

The great majority of the victims, moreover, were not of the laboring class, but persons who were walking along the track or across it at other than the designated crossing because the path offered a short cut to their destination.

In only thirteen states are there specific laws prohibiting trespass on the railroad rights of way, and in other States where efforts have been made for such legislation it has been met with bitter opposition as a piece of railroad arrogance and chiefly because it has not been recognized as a safety measure.

But an average killing or maiming of thirty-three persons a year ought to be enough warrant for a statute of this nature solely in the interest of public safety. It might be supposed to be of no importance to the railroads that the public, the railroad cannot be held responsible for the safety of the trespasser; the interference with the operations of trains due to the track being probably negligible.

The chief advantage of the law to the railroad would be in authorizing more drastic treatment of the hobo problem. Of course, the people might be so efficiently minded of their own safety to avoid the risk. But, as a matter of fact, they are not.

FAR SUPERIOR TO CASTOR OIL
Baby's Own Tablets are the best medicine for children. They are absolutely safe, pleasant to take and never fail to cure. They are far superior to Castor Oil and I would not be without them.

The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

War Destroying Horses
Descended from the "great horses" used in wars when armored knights required animals of weight and power to carry their heavy accoutrements, the Boulonnais draughter is one of the old and valued breeds threatened with extermination by the war in Europe.

As indicated by its name, the Boulonnais horse, raised in the district about Boulogne, in the departments of Nord, theomme and the Pas de Calais, was one of the frontiers of Belgium. Henry IV. had such a preference for these horses that as long ago as 1597 took measures to improve the breed and cultivate their speed, presumably at the trotting gallop. Since then they have been crossed with the Flanders horse, or Belgian draughter, and have become a breed of draughts even larger than the Percherons and more active. Some of them are said to trot a mile in five minutes or better.

Price specimens were to be seen in the towns of Lille and Tourcoing, which were the scene of desperate fighting after the war broke out, and also among the wharves of Dunkirk and Calais. Not many have been imported to this country.

"Mother wants a pen'north of glory today," said the little boy, "I got the chemist."

"We don't keep that," said the chemist.

"Oh, yes, do," said the little boy, "I got it here before Mother put it down the drain in the back yard."

"Then the chemist knew that the boy's mother was the 'giving clothes' of him."

WORMS
Worms are the cause of many diseases, and it is important to keep them out of the system. Mother Graves' Worm Exterminator is the best preparation for this purpose.

Deadly Missiles

Germans Are Now Firing New High Explosive Shells

A recital of recent developments in the war by an official observer attached to the British military headquarters, given out here, includes a description of new projectiles employed by the Germans.

"The new type of high explosive shell, detonating with a small black smoke," the report says, "Their mine thrower also occasionally throws a large bomb or aerial shell, some five inches long, and nearly ten inches wide. It weighs more than 200 pounds."

"The antipations of the enemy as to the possible duration of the war," the statement continues, "are shown by the measures they are taking to prepare for any shortage in certain classes of food."

"In some towns orders have been issued that all kitchen refuse be retained by the inhabitants to feed their own animals and be saved and handed over to the authorities for use as manure."

"The meat of preserved mutton by selling beef, mutton and pork at cost price."

IS YOUR BLOOD RICH?
Poor Blood is the indirect cause of much weakness—it allows chills, invites colds and sickness.

Nourishment alone makes blood—not does it. The blood is the life of the body. It is the indirect cause of much weakness—it allows chills, invites colds and sickness.

Potenate Has Lost Power
Abdul Hamid, the Turk, Now Out of Sight and Almost Out of Mind

Abdul Hamid, "the Wicked," in his day of power caused considerable alarm in the world. Now Abdul Hamid is hidden away no one knows where, and the world is almost entirely ignorant of his whereabouts.

As long as Abdul Hamid lived, and as long as he was the sultan of Turkey, he was a man of power. He was a man of power, and he was a man of power.

As long as Abdul Hamid lived, and as long as he was the sultan of Turkey, he was a man of power. He was a man of power, and he was a man of power.

Percherons Gain Ground

Imports of French Draughts Increase Fifty Per Cent in Four Years, While Clydesdales Fall Off

Canada is the stronghold of the Clydesdale horse on this side of the Atlantic but even there the Percheron seems destined to equal or surpass him in popular favor. This is indicated by increasing imports of the French horses and a falling off in the number of Scottish draughts brought over.

In a recent issue of the Field & B. White, president of the Percheron Society of America, calls attention to the fact that in 1909 there were imported into Canada 1,105 Clydesdales and 31 Percherons, while in 1913 the number of Clydesdales had fallen to 446 and the number of Percherons had increased to 428.

One breed thus made a gain of more than fifty per cent, while the other lost about forty-three per cent.

That the long hair on the legs of the Clydesdales is largely responsible for their failure to keep pace with the Percherons in America has long been apparent to dealers and other discerning horsemen. Light or wrong, the Percheron has a much preferred look in the United States, and it would seem that Canadian opinion is now turning in the same direction.

In conformation, quality, soundness and action the Clydesdale draughter is second to none, but his skillful breeders will have to get the long hair off their favorite horse's legs before they can make headway against the Percheron or the Belgian according to present indications.

Prisoners in Canada Direct Appeal to Dominion Government

This is the first time that a signed petition which was presented to Wm. H. Bradley, United States Consul for Montreal, praying for the release of a plea to the government that they be allowed to form a farm.

The petitioners state that they are kept in this country on account of the indefinite state of non-partisan prisoners and "are treated without any regard to international law, being neither allowed to leave the country nor given the opportunity to appeal to the government for release."

The petitioners state that the signers were induced to come to the country to work, and they brought an abundance of good will. They have been discharged because of the war, although willing to work, they claim, in exchange for the release of the country nor given the opportunity to appeal to the government for release."

"We have heard," says the petition, "that the government is now sending us together to a bush, to found there a village with farms. We beg you to say to the government that we are not the kind of men who are anxious to carry on the war, and we shall submit ourselves to the authorities of that place."

Portland Cement Raw Materials

Various Canadian cements analyzed by
the author show the following limits in
composition:

	Per cent.
Silica	21 to 25
Iron Oxide	1.5 to 3
Alumina	6 to 9
Lime	59 to 64
Magnesia	1 to 4
Sulphuric anhydride	1.3 to 1.8

The raw materials making up a cement
mix are widely distributed in nature, but
only a few combinations are used. Nearly
all the lime is furnished by two materials,
limestone and marl, while the silica,
alumina and iron oxide are derived from
clay or shale.

In Alberta we find Portland cement
made from the following combinations:

1. Limestone and shale at the Calgary
mill of the Canadian Cement Company.
2. Limestone and two grades of shale
at the Exshaw mill of the same com-
pany.
3. Limestone and shale at the mill of
the Rocky Mountain Cement Company
at Blairmore.
4. Marl and clay at the mill of the
Edmonton Portland Cement Company at
Marlboro.

One of the main troubles with a great
deal of the limestone in the province is
the high percentage of magnesia which
it contains, which renders it unfit for
cement purposes. Magnesia in large
amounts may cause concrete to disinte-
grate and crack, and besides that it has
very few hardening properties, so its
content is limited to four per cent.

There are many shales and clays in
the province which are suitable for
cement making when mixed with proper
limestone or marl. Generally two com-
binations will give a suitable mix, but at
Exshaw we find limestone and two grades
of shale being used. The shale found
near the hill contains too much silica to
give a suitable burning mix, so another
shale is brought in which contains more
flexible materials.

This paper will be followed by another
on the manufacturing of cement in Al-
berta.

Local Red Cross Notes

The following is a list of the goods
shipped by the Blairmore branch to the
Red Cross depot at Calgary this week—

- 24 short night-shirts
- 16 night-shirts
- 65 rolled bandages
- 32 triangular bandages
- 12 straight bandages
- 20 wash cloths
- 12 top shirts
- 1 nightgown
- 26 pairs socks
- 1 pair wristlets
- 1 Balaklava cap.

On Wednesday afternoon last, Miss
Pinkham, hon. secretary of the Alberta
provincial branch of the Canadian Red
Cross Society, addressed a meeting at
Coleman under the auspices of the Cole-
man branch. A good representation
from Blairmore was present—thanks to
those who furnished means of convey-
ance. Miss Pinkham gave an outline of
the work to date, dwelling more particu-
larly on the work among the Alberta
branches, which number thirty. Pincher
Creek being the latest addition. Her
talk was very much enjoyed, as was the
hospitality of the Coleman ladies.

NOTICE—There is a call for old linen
(white) to be cut up for hospital uses. A
limited amount of old cotton (white) is
also wanted. Anyone wishing to donate
such will please communicate with the
president.

HOCKEY—The Blairmore and Cole-
man girls will play a game of hockey on
the Frank ice Tuesday evening, the 9th
inst., the proceeds to be in aid of the
Blairmore Red Cross. The game starts
at 8 p.m. Admission 25 cents. Its up
to Frank and Blairmore to get busy and
"boon."

On March 1st the Red Cross fund
boxes were opened—the one in Thomp-
son's store contained 45 cents, in the
Cosmopolitan 80 cents, in the Drug Store
35 cents. \$1.60 to the good.

The Blairmore ladies' hockey
team journeyed to Coleman last
night, where a game was played
with the female sluggers of that
town. The ice was in poor condi-
tion, consequently it was difficult
to put up a good showing. How-
ever, the local aggregation defeated
Coleman by 1 to 0. Quite a num-
ber of gentlemen rooters accompa-
nied the team.

Frank Happenings

BORN—On Wednesday night, to
Mr. and Mrs. Charles Mott, a son.

John Foster, representing the
McColl Bros. Oil Co. of Calgary,
was in town on Thursday of this
week.

Hugh Robinson, late engineer
with the C.P.R., who is now with
the Calgary Infantry, was paying
his friends a visit here on Sunday.

The hockey fans may look for-
ward to another game or two of
senior hockey on the Frank rink
Watch next week for announce-
ments.

BUILDING FOR SALE—The
41 Market Building at Frank, is
for sale. Must be torn down or
dismantled at once. Apply to J.
H. FARMER.

Monday evening, owing to one
game already being scheduled,
would be an ideal time for that
much-talked-of married and single
men's game. Come, Murray, get
your men out.

A very interesting wedding is to
take place at the Methodist church
on Monday evening next at 6
o'clock. From all reports, this
will be a banner event in the wed-
ding line.

MARRIED—At the Methodist
parsonage on Sunday, February
28th, at 6:30 p.m., James Warren,
Anten, of Calgary, to Miss Bella
Kiel, of Taber. Rev. W. T. Young
performed the ceremony.

Rev. Hugh Dobson, of Regina,
will give a lecture in the Methodist
church on this Friday evening on
"Prohibition." The lecture will
commence at 7:30 sharp and be
illustrated by lantern slides.

The Frank intermediate hockey
team went to Coleman on Monday
night. Although Coleman had a
stronger team on the ice, the
Frankies played them a good hard
game and were only defeated by
two points.

I. Longworth, of Bellevue, who
is with the Pincher Creek contin-
gent, was visiting here, accompa-
nied by Fred Padgett, Jack Graham,
who is also with the Pincher
Creek boys, was down last week
and visiting friends here and at
Bellevue.

The Coleman intermediates will
play the Frank intermediates on
the Frank rink on Monday night,
March 8th, at 8 p.m. sharp. This
promises to be a good fast and well-
contested game, and all should en-
deavor to be on hand and root for
the locals.

The Frank senior team journeyed
to Coleman on Friday evening
last to play their return exhibition
game. Coleman was successful on
this occasion in reversing the
Wednesday night score, but the
Frank supporters are still confi-
dent that Frank can defeat Cole-
man at the regular game of
hockey.

The ladies of Blairmore and
Coleman will play a return game
of hockey on the Frank ice on
Tuesday night next, commencing
at 8 o'clock sharp. The proceeds
of this game will go to the Red
Cross Fund. Don't miss it, for it
may be the last opportunity you
will have to learn how real hockey
should be played.

The Coleman ladies' hockey team
came down on Tuesday evening
for a return game with the Frank
ladies. Both teams put up a good
game. Frank's cover-point did
lots of hard checking at times.
Coleman were at considerable ad-
vantage with weight, but the Frank
ladies showed up the best hockey.
Luck was apparently with Cole-
man, who won 2 to 1. The follow-
ing comprised the Frank team:

Goal—Miss Dubois.
Point—Miss Bella Stone.
Cover Point—Miss Maggie Stone.
Rover—Janet Nicol.
Centre—Miss S. Simpson.
Right Wing—Miss Lillie Blair.
Left Wing—Miss Mary Simpson.

er, is in charge, and will be pleased
to answer all enquiries as to baptisms,
marriages, funerals, etc.

Passburg Happenings

F. N. Fowler and family have
moved into Tom Nicholl's house
in Quality Row.

The stork visited the home of
Mr. and Mrs. Glover on Sunday
and left a little girl. Mother and
daughter are doing well.

Since the mine closed here, some
of the boys took a trip to the coal
fields west of Edmonton in search
of work. They came back last
week and report that jobs are at a
premium in that district.

The outlook here is not improv-
ing any. The men are still minus
their pay for December and Janu-
ary. J. N. Rowell, who it seems
has the exclusive right to cash
their statements when they do pay,
is giving the men credit up to the
amount they have earned. We
understand he has notified those
who have eaten all they had com-
ing that they can have no more
credit. We can see where a
relief fund will be needed here un-
less conditions change very quick-
ly.

Halt! Attention!

The 1914 War Illustrated
THE Blairmore Enterprise

AND
Western Home Monthly
(Western Canada's most popular
magazine)

FOR ONE YEAR
ALL FOR \$2.00

"The 1914 War Illustrated" contains over 300
remarkable war photographs with much valuable information
as to the causes leading to the great struggle, and other import-
ant data including the military and naval strengths of the
countries involved. Two interesting maps—one of the war
zone, and the other (in four colors) of Europe are also included.
This invaluable Handbook of the war is printed on art paper
with an attractive patriotic cover, and is the best publication
of its kind in Canada.

BLAIRMORE - ALBERTA

(Dedicated to Mike Ross)
It's a long way to Tipperary,
It's a long way to go,
It's a long way to Tipperary,
—Sure I have found it so.
It costs a little money,
And lots of worry, too;
The Cuckoo may get to Tipperary
But I'll get there too.

C. F. Sedewick was up from
Lambreck today.

Rev. R. J. Shires, of St. Alban's
church, Coleman, will officiate at
the Anglican services at Pincher
Creek on Sunday.

Bellevue Happenings

Gus Weiberg paid a visit to Macleod this week.

C. W. Johnston paid a business visit to Macleod this week.

R. Randall paid a visit to Pincher Creek during the week.

W. Legg, of the miners' opera house, is laid up with laryngitis.

Mias Eddy, of Passburg, was visiting some friends in camp this week.

J. Rudd and Ross Mackenzie were at Macleod this week on business.

Billy Weldon was at Michel this week advertising his patent ironing board.

Jarrett Evans, who has been training at Pincher Creek, returned this week.

Rev. Mr. Reid, of Tennessee, was visiting Rev. and Mrs. Cook during the week.

Mrs. Robert Scott has arrived in camp, and is registered at the Bellevue hotel.

E. Litherell, who has been sick for the past eleven months, left the hospital this week.

Mr. and Mrs. George Clupland, of auriferous, were visitors in camp this week on business.

John Barwick went to Calgary this week to attend the meeting of miners and operators.

Mrs. Williams, who had been visiting at Pincher Creek, returned home on Monday morning.

A case in which some Bellevue Austrians figured prominently, was heard in the police court this week.

James Burke, who had been attending the miners' convention at Lethbridge, returned to camp this week.

The restaurant and boarding house known as "The Greasy Spoon" has closed its doors to the public.

J. Lutton, who left here some time ago for the States, has returned to camp. He says there are worse places on the map than Bellevue.

The dance held by the Finlanders in the Workers' hall on Friday night was fairly well attended. The music was furnished by the Bellevue orchestra.

W. W. Scott and Rev. F. T. Cook were at Coleman on Friday, the former playing hockey and the latter refereeing the game between Frank and Coleman.

D. Mackenzie left this week for Pincher Creek, where we understand he intends opening an art gallery. "Mack" will be greatly missed around this burg.

Mrs. Thomas Kynaston and family left camp this week for the Peace River country, where they intend to reside in future. Mr.

Kynaston will remain here a while yet.

The meeting of the patriotic society held in the Eagles' hall on Friday night was poorly attended. Quite a bunch of business was put through. The next meeting will be held on Friday night at the same place.

Several of the soldiers were up from Pincher Creek on Sunday. Among them were Wallace Raynor, George Christie, John Longworth and E. Roberts. They report having a good time at Pincher.

Rev. H. Dobson, of Regina, was in camp on Wednesday and lectured in the local church on the temperance question. Mr. Dobson is one of the ablest speakers on this question in the Dominion. His lecture was illustrated by lantern slides. Those who missed hearing Mr. Dobson missed the treat of their lifetime.

Mrs. R. Eccleston received word this week that her brother Robert had been killed at the front. He was a petty officer in the navy and was killed on November 29th. Mrs. Eccleston lost a first cousin, killed at the same time, and a brother-in-law who was killed in France. The latter was a private in the army and volunteered at the outbreak of the war. The two former had 15 and 20 years respectively in the service. The people of this camp wish to extend their sympathy to the bereaved relatives.

CHRONIC STOMACH TROUBLE CURED.
There is nothing more disconcerting than a chronic disorder of the stomach. It is not surprising that many suffer for years with such an ailment when a permanent cure is within their reach and may be had for a trifle? "About one year ago," says R. H. Beck, of Virden, Mich., "I bought a package of Chamberlain's Tablets, and since using them I have felt perfectly well. I had previously used any number of different medicines but none of them were of any lasting benefit." For sale by all dealers.

Cowley Happenings

Mr. Tredway left Saturday with his war horses for Winnipeg.

Mrs. Shad, of Pincher Creek, was the guest of Mrs. Gow the past week.

Mrs. George Sharp, of the Porcupines, was the guest of Mrs. Gilmore a few days this week.

Mr. and Mrs. James Smyth entertained a number of friends to a turkey dinner on Sunday. To the hereafter ones we extend our sympathy.

At the home of Mr. and Mrs. John Bare, Tuesday, March 2nd at Cowley, occurred the marriage of Miss Patience Honour Letcher, second daughter of Mr. and Mrs. Thomas Letcher, of Fernie, to Mr. Chas. T. Bare, of Cowley, the ceremony being performed by Rev. Wright, in the presence of a few friends and relatives. Mr. and Mrs. Bare will make their future home on their farm near Cowley.

A nasty accident occurred at the ranch of A. Drewry, when one of his men, being of an inquisitive turn of mind, took the hammer and a gun cartridge and started to investigate as to what was inside the shell. When he struck the shell it naturally yielded to the blow, and there being nothing nearer to hit, struck the hand that held it, shattering it badly and also entering the arm of another who was standing near, causing a nasty flesh wound. Dr. Donald was called to dress the wounds. It will be some time before the venture-some chap will be able to use his hand again.

The Women's Institute wish to thank those who are sending in such nice bundles of clothing to be forwarded to the Belgians, and also those who are asking for yarn that they might knit socks for the boys at the front. Eighteen pairs of mitts and several pairs of socks, as well as a number of little clothes for Queen Mary's gift were handed in to the institute last Saturday, and anyone desiring to knit will be able in a few days to get the yarn to do so. Mr. McIvor is sending an order for more yarn for the institute, as they intend to keep busy as long as socks are needed.

On Friday evening the 26th ult., the Presbyterians held a concert in the hall in aid of the church. The programme was both interesting and lengthy, and everyone went home feeling that they had got the worth of their money. Dr. Donald filled the chair solo. Rev. Mr. Chalmers was unable to be present on account of his recent illness. Great credit is due those who took part in the dialogues, as they were both good and rendered in fine style. A duet by Mrs. Dodson and Mr. Young was well received. George Young had W. Tustian also lent their assistance to the vocal part of the program. Mrs. M. Robinson, Mrs. Boutillier, Mrs. W. C. Robinson and J. Snyder gave interesting comic readings. Miss Ethel Welsh also

very well, indeed. The net proceeds amounted to \$23.00.

SYNOPSIS OF COAL MINING REGULATIONS
Coal mining rights of the Dominion, in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 an acre. Not more than 25.00 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections and in unsurveyed territory the tract applied for shall be stated out by the applicant.

Each application must be accompanied by a note of intention to be filed in the office of the Agent or Sub-Agent. If the rights applied for are not available, but not otherwise, a statement to that effect must be filed.

The lease will include the coal mining rights and the lessee may be permitted to pit chase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$1000 an acre.

For full information application should be made to the Secretary of the Department of the Interior (Ottawa) or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY, Deputy Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.—61500.

SYNOPSIS OF CANADIAN NORTH WEST LAND REGULATIONS

THE sole owner of a family, or any other person, who is desirous of securing a quarter-section of land in the Dominion of Manitoba, Saskatchewan or Alberta. The applicant must appear in person to the Agent or Sub-Agent of the District, or the District Agent (not Sub-Agent), on certain conditions. The land is to be held for a term of three years. A homestead may be taken on the land. A homestead may be taken on the land. A homestead may be taken on the land.

In certain districts a homestead in good standing may be taken on a quarter-section of land. The land is to be held for a term of three years. A homestead may be taken on the land. A homestead may be taken on the land. A homestead may be taken on the land.

W. W. CORY, C.M.G., Deputy of the Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.—61500.

War Courage

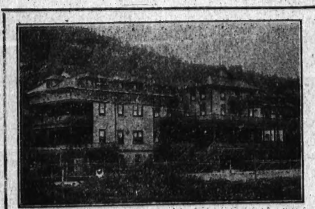

Many a man in Canada, willing to go a-warring across the seas, is unwilling to fight at home—against the shadowy foes of bad times or business depression.

This is the time in Canada when Canadian business men should fight—fight to capture new trade and to hold old trade. To stop one's advertising is to withdraw a powerful offensive and defensive force, to expose one's business without a guard.

If the courage of manufacturers, wholesalers, retailers—the generals and captains of trade and industry—fails, the courage of the nation will ebb.

ALLIES IN THE FINAL SETTLEMENT

INDEMNITIES TO ALL THOSE WHO HAVE SUFFERED

**The more Germany keeps Destroying the more Crushing shall be
Her National Debt, when the Inevitable time Arrives
for her to Effect a Settlement**

While these liners were being written the tide of German success may be said to have been at its height. A dynastic disaster, unparalleled in modern history, but reserved, self-inflicted, and self-inflicted, was the spirit and the methods adopted by a nation's chosen rulers and favored in-

Germany has fought Western Europe by foul means as well as fair; by the sword and the dagger, by the most part damage neutrals or non-combatants; by printed and whispered lies, by incendiary bombs, at the distant, the impressionable, and the easily gulled; by blackmail "either to the victor or the vanquished" pounds of life for ever the historical beauty and interest of your deal to human pity—the terror caused by Red lightning, atrocious Turkish methods of non-combatants, the shameful trading on pity by using released and unarmaged prisoners and children as bodyshields; by dressing in the uniform of the foe; by holding the white flag to lure non-combatants into the death zone.

Germany has been victorious in Russian, Belgian, Serbian, Montenegro, Indian, Japanese or African sold- Mecklenburg, Silesian, Sax or Hanoverian in the admirable able to man museums, pictures, churches, and other national achievements in the varying armies of the allies (save for the unavoidable accidents of war) that no German maid or matron will be outraged, no German priest or German child, no German soldier, no German child bayoneted, it is still

than the former friends and advocates in this country, the men and women who have been so kind and many in the councils of Great Britain, and obtained it, who desired that her

should be satisfied, and had secured that adequate satisfaction some

But how is Germany to pay, some will ask. She will soon be bankrupt, she will soon be a perverse, turn the wheel of fate. She will be ground in France and her unopposed

ing are only worth a few millions near the 2,100,000,000 she will be

000,000 she will owe to France, and as yet uncalculated sum she will in

to make over to Britain and Russia. Well, she will only meet her obligation by territorial occupation on a large scale, by a virtual revolution

Germany states must go into the melting pot. The first of all the first of all. The private states of the first and foremost of the Hohenzollerns, who are

eschanted by the revolutionary gov-

temptation of German territory of Germany to retain, after war is

her present, territorial divisions, the dynasty she must allot to her

reasonable civil list, payment for estate received. But all their private

nous treasures and trusts and concealed funds must become national

Once Germany is purged of Russia, once the Hohenzollerns are ex-

ten, should remain unpaid for when the German wickednesses are forgotten. Even the loss to the world of the outer and inner beauty of Paris, the pollution of those trees which cannot be replaced in your or my lifetime—middle aged or aged readers will not quarrel with this—its lovelessness which these human beasts are carrying out round Brussels shall be paid for, not by robbery. German or French money that shall be paid for money for many years to a wholesome point.

Just as the Rothschilds in Buckinghamshire, by spending thousands of pounds on the destruction of the sylvan lovelessness of neighboring Hertfordshire, in that they conveyed thither the seeds of the pestilence, so they planted them to suit the secret effect; the groves and parks of Paris and of Brussels are the same. The German money. For every penny in Belgium, the French have been doing low with gunpowder and dynamite in Flanders and Brabant, in the Netherlands and the east of France, Luxembourg and the northeast of France, she shall pay; pay for the destruction of the forests, for the more money she keeps destroying the more she shall pay indemnities to the French for the destruction of their homes in Belgium or France, pay for the support of the army, pay for the support of the army, all whom her soldiers have barbarously and unjustly slain; pay for robbery, pay for the destruction of the forests, of two years of happiness, pay for the destruction of tourist carriages, pay for the destruction of the destruction of our North Sea fishing boats, pay for the enforced every penny for the foreigner imprisoned, for every ship of the French navy, for the destruction of fishing boats, those of France and Belgium.

And now will we not see the

Just an Ordinary Crime

"Kultur" is no respecter of neutral nations. After Germany's assumption of the right to ride roughshod over neutral Belgium it is not at all surprising that the shallow brained German calling himself Vanhorn should have asserted it his right to use the United States as a base of operations.

By no stretch of normal imagination can such an act of vandalism be contrived as a means of self-defense. It is just a common crime, its

perpetrator by his own confession a criminal. The crime was committed on Canadian soil. It is traditible. No time should be lost in turning the criminal over to the Canadian authorities.

It is fortunate for Vancouver that he will be tried before a Canadian court and under Canadian laws formulated

Minister.

Red Cross Notes.

Amongst the gallant soldiers of the Empire who are now fighting for the cause of freedom, and to whom the Red Cross Society is sending a large assortment of comforts of all kinds are the intrepid fighters from the Indian Empire. From the headquarters of the society in Toronto five cases of supplies have been sent this week to the Indian soldiers and from now on cases of socks, shirts, mufflers, etc., will be sent regularly to these men. No men have borne the trials and sufferings of this terrible war with greater fortitude than the brave members of the Indian expeditionary force. For after day they have crunched in the water-logged trenches side by side with their British comrades and they have suffered perhaps more than those from the old land for they are used to a warmer and drier country dotted with mountain ranges where battles are fought without the need of digging trenches. Yet these men have no complaint but have performed their duty with a merry smile and a splendid race. In the Royal Pavilion at Brighton, on the south coast of England, in the lovely country of Sussex, whose glories have been immortalized by Rudyard Kipling and other writers, hundreds of wounded Indian soldiers are now under the treatment of Red Cross nurses. This palace was once the country home of King George IV, who erected it himself, and in the room where he used to hold his state banquets and grand balls, wounded and stricken men now lie, looking forward to their recovery when they will once again be able to draw their Kukris in the name of the great Subah or C. for the Sirkar. It will be a source of great pride and satisfaction to the people of Canada, who are so splendidly supporting the Red Cross, that this comforts they have made and those purchased with

their donations will find their way to the hospitals in Brighton and bring comfort to the soldiers of the Indian empire. There are perhaps many in this country who wonder where the comforts they have made have really gone. It will not be necessary to say that every one of them has been sent where most needed but it may be of interest to them to know that some of them have gone to the Duchess of Cornwall's hospital at Cleveley, Tynemouth, the beautiful Thameside residence of Major Waldorf Astor, M.P., others have gone to the hospital at Le Touquet in France, while thousands of them are now being worn by the soldiers actually fighting in the trenches.

"Come And Do It!"

London, Feb. 27.—Miss Jessie Pope, the clever English poetess, has contributed the following to the London Press: When Germany, six months ago, observed our fighting force in France, how kindly she began to frown. While harkling ceased her countenance. "That British Army makes for nothing," she cried; "with utter scorn we view it." "We're going to wipe it off the earth!" And England answered: "Come and do it!" But German programmes change it will. New schemes Tenthon's bosom find. The sack of England filled the bill. "While Berlin shouted and admired," "We'll crush your hand with Lundy and sheld!" They cried; "In little bits we'll throw it." "We'll turn your London into hell!" And England answered: "Come and do it!" "Then more their plans they read just; "Tells another time is played." "We'll make you British like the dust," They cry; "Oh means of a blockade! An iron belt we'll set about Your shores, and tighter still we'll smother it." "Until, like rats, we sterve you out!" And England answered: "Come and do it!"

Mrs. A. Olsen, sr., is indisposed this week through illness.

James Serra, of Banff, is in town this week renewing old acquaintances.

Mayor Morrison and Alex. Cameron were down from Columbia on Tuesday.

Mrs. Kidd's maternity home, Box 95, Phone 151. Wedding cakes decorated.

Miss N. Sims left for High River on Saturday, where she will spend a while with her sisters.

For this week end we have Hot-House Lettuce, Ripe Tomatoes, Cauliflower and Celery. F. M. Thompson Co., Phone 25.

A joint meeting of the school boards of this section of The Pass is suggested, to consider the financial problem.

Rev. W. H. Muncester, B.D., will occupy the pulpit at the Presbyterian church on Sunday morning and evening next.

Mayor Hardie, of Lethbridge, has been informed that all the knockers are not yet under the sod. Well we know it!

L. H. Putnam went to Macleod on Monday night, where he appeared at the criminal assizes to defend two Pass clients.

John West, the negro, who murdered Miss K. C. Dunn at North Sydney on December 21st, is to be hanged on Monday, April 19th.

An old doctor told us yesterday that the Coleman babies cry because they have no other way of expressing their disgust with their surroundings.

The Blairmore flour mills have been closed down indefinitely, owing to the interruption of commerce and the loss of the Austro-German market.

The March term of the Macleod assizes opened on Tuesday. Mr. Justice Hyndman presiding. There are four cases of a serious nature to be considered.

A well-known young couple, of Frank, have become victims of Dame Cupid, and the important ceremony will take place at Frank on Monday next.

Blairmore can claim at least one patriot. C. E. F. Hiscocks, town treasurer, has thrown up his position worth \$120 a month, in order to go to the front.—Creston Review.

The local plant of the Rocky Mountain Cement Co. started operations on Monday of this week, and are at present employing in the neighborhood of ninety men.

The initiatory degree will be conferred on a number of candidates by Bellevue Lodge of the Independent Order of Oddfellows on Monday night next. A large attendance is expected.

Women of Alberta will have no opportunity of voting on the prohibition plebiscite in July, nor have they any assurance that the present legislature will grant them the franchise.

Mr. and Mrs. J. Jones arrived in town from Calgary on Monday, and will again take up residence here. Mr. Jones has reassumed duties with the Rocky Mountain Cement Co.

The four McCutcheon brothers, charged with conspiracy to defraud the public in the sale of western real estate, were arraigned before Chief Justice Mulock in the assize court at Toronto on March 1st. Their case was transferred to the next assizes—the accused being allowed out on bail of \$10,000.

THE MOTHER'S FAVORITE.
A cough medicine for children should be harmless. It should be pleasant to take. It should be effective. Chamberlain's Cough Remedy is all of this and is the mothers' favorite everywhere. For sale by all dealers.

Mike Rossi, chaplain of the Hoodlums, spent the week at Edmonton, visiting Little Arthur.

Dr. David Warnock, M.P., has offered his services to the Imperial government in the veterinary corps.

The Presbyterian Women's Guild will meet at the home of Mrs. J. M. Carter on Wednesday, March 10th, at 3 p.m.

Archie Currie, of the Western Canada Wholesale Co., was taken ill on Wednesday. We are pleased to know he is improving.

Fritz Sisk came up from Lethbridge on Wednesday on business in connection with the Alberta hotel, which we understand will open up under new management next week.

Rev. W. H. Muncester, who has been in charge of the Blairmore mission of the Presbyterian church for about twenty-seven months, has decided to resign, his services as pastor ending on Sunday, March 28th.

Monsieur Edward Patrick Roche, rector of the Roman Catholic cathedral at St. John's N.B., and administrator of the Newfoundland diocese, was notified of his election to the archbishopric by Pope Benedict.

R. A. Godson, formerly business manager of the "Macleod Advertiser," has purchased that plant from J. E. Pembler and is removing it to South Edmonton, where he is conducting a printing and publishing business.

A meeting of the shareholders of the Edmonton Portland Cement Co., Ltd., has been held to determine whether or not that \$150,000 concern, in which many hundreds of westerners are interested, shall go into voluntary liquidation.—Lethbridge Herald.

J. M. Fetter returned from Spokane, Wash., on Monday night, and spent a day here before continuing on to Chicago and New York. We understand that "Jim" is busy promoting a cement manufacturing company, and we wish him all kinds of success.

Two hundred and fifty-eight miners were employed by an explosion in a mine at Blaine, W. Va., this week. Up to Thursday ten had been brought out alive, and it is expected that most of the 165 at present beyond reach will have succumbed before assistance can reach them.

The ladies of Blairmore and Coleman will play a return game of hockey on the Frank ice on Tuesday night next commencing at 8 o'clock sharp. The proceeds of this game will go to the Red Cross Fund. Don't miss it, for it may be the last opportunity you will have to learn how real hockey should be played.

Not that it makes much difference, but just so that you may not forget your history, it may be remarked that American vessels under the British and Japanese flags during the war with Spain but there were no submarines then and so definitely announced danger zones. Spain was too busy to get on gunning for merchant ships, so no one thought it worth while to protest.—Vancouver Province.

The Macleod council have had under consideration a scavenging scheme, under which, by arrangement with the town, contracts would be entered into between householders and some drayman or draymen for the removal of kitchen refuse upon a fixed schedule of so much per house. The proposal is that the drayman would enter into a binding contract to remove such refuse once a week, the householder being compelled to put such refuse in a convenient approval receptacle at the rear of the premises. The proposed schedule is 50 cents per month for private houses, 75 cents for restaurants and \$1.00 for hotels.

A fleet of 52 warships are at present in action in the Dardanelles and on the Turkish coast.

Mike Rossi has been granted a wholesale liquor license for Blairmore and will open up the store just east of the Cosmopolitan hotel.

During the past week steps have been taken to carry into effect the waterworks regulations, and those who refuse to pay for the service are being cut off.

Since the Germans started the "paper blockade" of the British coast no less than 708 ships have arrived in British ports and 678 have sailed. This is how the Germans have managed to tie up the allies' shipping and commerce.

"The Enterprise" is booking orders for nursery stock, including plants for house culture and office decoration, hardy flowering shrubs, climbing vines, fancy grasses and ornamental trees, fruit and hedge trees, etc. Leave your order early.

The announcement of Rev. J. C. Sycamore that he is seriously considering a call to a church away from Calgary is not very good news for Calgary. Mr. Sycamore is a charming man, an able speaker, a successful pastor, and the best kind of a citizen. Calgary would be the poorer without him, and the church of which he is a pastor would have great difficulty in replacing him—Calgary Alberta.

After a deliberation lasting an hour and a half the jury in the criminal assizes at Toronto brought in a verdict of guilty against Emil Nerlich, the well-known Toronto merchant, charged with conspiracy to commit an indictable offence, namely in assisting an alien enemy to leave Canada. The case will be carried to the Court of Appeals and the judge has handed down decision of suspended sentence. The accused was liberated on \$100,000 bail.

F. C. Selous, the noted English big game hunter and traveller and a brother of Harold Selous, ex-mayor of Nelson, is said in a report from London to be due of the office of a romantic and mysterious expedition which will leave England in about three weeks. The expedition will be in command of Lieut-Col. D. L. Driscoll, D.S.O., who headed a body of scouts in the South African war, and according to that officer it will go "on a sort of special mission in a tropical country."

Rev. J. C. Sycamore, pastor of First Baptist church, Calgary, has tendered his resignation to that pastorate to accept an invitation to Holyoke, Massachusetts. In his farewell address he stated that he loved this Sunny Province, and believed it to be one of the most suitable and desirable places for home-makers in the Empire. So far the congregation of First Baptist church has declined to accept Mr. Sycamore's resignation, and will offer him some special inducements in order to have him remain.

R. W. Coulthard, a contributing editor of Mine, Quarry and Derrick, a new mining publication issued in Calgary, is visiting the district in the interests of that publication and during his stay will investigate mining conditions in the district with the view to writing a series of articles for the paper. He is at the Strathcona. Mr. Coulthard has returned from a visit to the Northwest Mining convention at Spokane. Mr. Coulthard states that he was particularly struck with the ore which was on display from Kootenay and Boundary. Mr. Coulthard was formerly with the Crow's Nest Pass Coal company and later was manager of the West Canadian Collieries at Blairmore and Bellevue—Nelson News.

Special Corps to Be Organized by C.P.R.

Ottawa, Ont., Feb. 26.—A special engineering corps of 500 Canadian engineers is to be organized by the Canadian Pacific railway for service at the front. A request received some time ago from the war office for the formation of such a corps, whose duties it will be to rebuild bridges, replace right of way and perform other work of this kind, very necessary in modern warfare.

Vice President George Bury of the C.P.R. on request offered to undertake this work as he is naturally in a better situation to secure the right kind of men than the government. The heavier equipment for this corps will be supplied by the British war office, but the smaller and lighter equipment will be assembled in Canada and transported with the corps.

The great importance of communication lines, particularly lines of railway for the rapid movement of troops, have been emphasized in the developments on both main battle fronts and it is believed that Canada is in a position to supply a corps of men highly trained in the work of constructing, repairing lines of railways, bridges and works of that character.

The corps which Vice President Bury has undertaken to organize will be commanded by a man high in the engineering world of the Dominion, and it is understood that an official of the C.P.R. itself may secure the position.

The corps according to present indications will be about 500 strong.

Convent Sisters Manage Coal Mine

A coal mine with a productive capacity of 60 tons a day, sufficient to supply light and power for one of the largest convent schools in the country, has been successfully managed for years by the Sisters of Providence, the Catholic order that conducts the institution known as "St. Mary of the Woods," near Terro Haute, Ind. The convent was founded in 1850, but it was not until 1854 that the discovery of valuable coal deposits, underlying the lands belonging to the institution, was made. A shaft was first sunk to a depth of 92 feet, but this was later abandoned for a shaft 270 feet deep, where the average thickness of the coal vein is 5 feet. This mine is now operated under the management of one of the sisters, who is well versed in everything pertaining to mining operations and machinery.

The equipment is of modern type throughout. For hauling the coal from the mine to the power house, a distance of three-eighths of a mile, an electric motor-trolley system is used. The power house has five dynamos which furnish electric light for the buildings and grounds, while the exhaust heat is utilized for heating. Water is supplied from a reservoir by a pump driven by two motor generators about a mile distant from the institution, from which it passes through three gravel filters before being used. A duplex fire pump is located at the power house and has a capacity of 1,000 gallons per minute. A total of 41 motors are required about the buildings and grounds for various power purposes which include an ice machine with a daily capacity of 16,000 pounds, an electric laundry and automatic electric elevators in four of the buildings.

NOTICE TO CLAIMANTS AND CREDITORS

IN THE ESTATE OF ANDREW BALLET, late of Hillcrest in the Province of Alberta, Miner, deceased.

NOTICE IS HEREBY GIVEN that all persons having claims upon the estate of the above named Andrew Ballet who died on the 19th day of June, A. D. 1914, are required to file with the MORTGAGE & GUARANTEE COMPANY, LTD., Calgary, Alberta, by the 1st day of April, A. D. 1915, a full statement duly verified and sworn to, and of any securities held by them; and that after that date the Administrator will distribute the assets of the deceased among the parties thereto, having regard only to the claims of which Notice has been so filed or which have been brought to their attention.

DATED this 1st day of March, A. D. 1915, at the City of Lethbridge, in the Province of Alberta.

H. OSTLUND, Lethbridge, Alberta, Solicitor for the Administrator, The Trusts & Guarantee Company, Ltd., Calgary, Alberta.

Approved of and three insertions in the Blairmore Enterprise.
